

## Backgrounder

**MedApp** is a NewConnect-listed technology company. The company develops unique software solutions to support next-generation diagnostic imaging and digital medicine services based on artificial intelligence, mixed reality and 3D imaging solutions. The key technologies offered by our company are: **CarnaLife Holo, CarnaLife System, HoloComm and Digital Clinic.**

**CarnaLife Holo** is a certified innovative technology that supports the planning and execution of complex medical procedures. With the help of Microsoft's HoloLens 2 goggles, the doctor sees in real space a 3D hologram that reflects the imaged anatomical area. The physician is free to interact with the displayed hologram. CarnaLife Holo is now present in 18 medical facilities in Poland and worldwide, and has been used in nearly 100 medical procedures of various specialties.

**CarnaLife System** is an advanced telemedicine platform that allows a physician to assess and monitor the health of their patients and conduct consultations at any time of the day and at any place. The system is supported by more than 20 remote measurement devices. Examination results are analyzed 24/7 using AI algorithms and Big Data analytics. The system has been implemented in 16 medical facilities. On the basis of this solution, the **Digital Clinic** was created, which is a product aimed directly at patients and individual users.

**HoloComm** is an engaging platform for remote 3D presentation of products, content, data and more, also using Microsoft HoloLens 2 glasses.

In 2020, our profit growth rate was 185% compared to the previous period. The company's strengths include the support of the Scientific Board consisting of recognized specialists in medical innovation and cooperation with international technology and medical leaders such as: Microsoft, GE Healthcare or Johnson & Johnson.

In 2021, MedApp S.A. is planning to debut on the main market of the Warsaw Stock Exchange.
